

### Integrated prostate cancer research across the European Union: The TransPot Collaborative Symposium

Wednesday 27<sup>th</sup> May 2020  
Teleconference – Zoom

Please note that the Symposium will be recorded for dissemination purposes.

Time BST [CEST]	Topic	Speaker
12:00 [13:00]	Welcome and TransPot introduction	<b>Hing Leung</b> University of Glasgow
12:15 [13:15]	Extracellular Vesicles: roles in metastasis and therapy response	<b>Bruno Costa-Silva</b> Champalimaud Research
12:55 [13:55]	A novel panel of patient-derived preclinical models of castration resistant prostate cancer: xenografts and PDX-derived organoids to recapitulate patients' disease profiles	<b>Annelies van Hemelryk</b> Erasmus MC & <b>Ingrid Tomljanovic</b> GenomeScan
13:20 [14:20]	Identification of long non-coding RNA with aberrant expression in prostate cancer metastasis	<b>Mina Sattari</b> Tampere University
13:45 [14:45]	Break	
14:00 [15:00]	Multiplexed imaging for tissue phenotyping and biomarker discovery	<b>Teijo Pellinen</b> University of Helsinki
14:40 [15:40]	Transcriptional co-regulators activity status as a prognostic signature for recurrence predisposition in prostate cancer patients.	<b>Mario Cangiano</b> GenomeScan
15:05 [16:05]	Identification of urinary biomarkers in relation to prostate cancer progression and castration resistant prostate cancer	<b>Marouane Kdadra</b> numares HEALTH
15:30 [16:30]	Final wrap up and close	<b>Craig Robson</b> University of Newcastle
15:45 [16:45]	Symposium ends
